

# We are hiring!

**Position:** iOS & Android Developer

**Location:** Polígono de Pocomaco, A Coruña

**Position available from:** June 19, 2017

**Conditions:** Full time contract / internship

## Job Description

### Junior Mobile Developer

Responsible for developing applications for mobile devices powered by Apple's iOS and Google's Android operating system.

We are looking for an iOS & Android developer responsible for the development and maintenance of applications aimed at a range of iOS and Android devices including mobile phones and tablet computers. Primary focus will be development of mobile applications and their integration with back-end services in the form of REST API developed by WayApp (see <http://docs.wayapp.com>). Position will be working alongside other engineers and developers working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and the creation of quality products is essential. iOS development will be with xCode 9.0 and Swift 4.0, and Android development with Android Studio 2.33.

## Your Journey with Us

Grow with us. Breathe the fresh air of an international startup. Join a group of world-class professional that follow best-practices in every step of the way.

Deploy apps that use sophisticated backend technologies all hosted on Amazon Web Services under the highest level of availability, performance and security.

Gain a broader understanding of software architecture for mobile and cloud-based computing while working within a fast-paced team of experienced professionals.

Take advantage of mentorship and enjoy a sense of purpose while leveraging your passion and making your strengths make a difference.

## **What are we looking for?**

Computer Science graduate or in the last year of a Computer Sciences degree. No previous work experience is required.

A strong desire to be successful. Flexible and self-motivated with a problem solver attitude. Ability to work in an unstructured problem-solving environment and synthesize strategy, plans, and solutions. Able to work independently yet collaborate cross-functionally in a team environment.
